

Small Business Tax Checklist

If you are a bookkeeping client at ITC, we already have access to your QuickBooks online account. Please review your contract to ensure that those tasks that are your responsibility are completed as soon after the year end as possible. This will allow our bookkeeping team to ask pertinent questions and close your books for the year in a timely manner before sending them to the tax team to prepare your business tax return or schedule on your individual tax return.

If you are not a bookkeeping client at ITC please provide “Accountant” access to your QuickBooks online account if you have not already done so. Send invitation to Sarah@integratedtaxconsultants.com Please note this access to your account is used to gather financial reports in order to prepare your business tax return or schedule on your individual tax return. Your books need to have all transactions categorized and each account reconciled before we can do so. Please complete these tasks as soon after the year end as possible.

If you use QuickBooks desktop, please create and send a backup file to us once your books are complete for the year. If you use other software for your bookkeeping, please provide appropriate access, backup files, or a portable company file w/ password.

Please note that QuickBooks and other accounting software does not capture information related to the business mileage and home office deductions. If applicable, do provide the information for these as detailed below.

The following is a thorough guide to the information we need from you to complete your business tax return or schedule on your individual tax return. Please note that some of these items may not apply to your business or additional information may be needed.
